

List of Tables

Table 1: 1, 2 and 5 year net survival by site for patients with brain tumours ages 20 and older.

Table 2: 1, 2 and 5 year net survival by site for patients with brain tumours ages 19 and younger.

Table 3: 1, 2 and 5 year net survival by CBTRUS histology for patients with malignant brain tumours ages 20 and older.

Table 4: 1, 2 and 5 year net survival by CBTRUS histology and sex for patients with malignant brain tumours ages 20 and older.

Table 5: 1, 2 and 5 year net survival and age category by CBTRUS histology for patients with malignant brain tumours ages 20 and older.

Table 6: 1, 2 and 5 year net survival by ICCC histology for patients with malignant brain tumours ages 19 and younger.

Table 7: 1, 2 and 5 year net survival by CBTRUS histology for patients with non-malignant brain tumours ages 20 and older.

Table 8: 1, 2 and 5 year net survival by CBTRUS histology by sex for patients with non-malignant brain tumours ages 20 and older.

Table 9: 1, 2 and 5 year net survival by CBTRUS histology by age group for patients with non-malignant brain tumours ages 20 and older.

Table 10: 1, 2 and 5 year net survival by ICCC histology for patients with non-malignant brain tumours ages 19 and younger.

Table 1: 1, 2 and 5 year net survival by site for patients with brain tumours ages 20 and older (2010-15 BC, AB, MB, ON).

* Values were censored due to the total number of cases being less than 50.

** Survival point estimates were censored due to the product of the estimate and the number of cases disclosing that there were less than 5 deaths.

*** Censorship for both less than 50 cases, and the product of the estimate and the number of cases disclosing that there were less than 5 deaths.

**** Survival and SE could not be estimated as observed survival was better than what would be expected in the general population accounting for age, sex, province and .
